

PHANINDRA UPPALAPATI

SENIOR SOFTWARE ENGINEER

Java • Spring Boot • Application Modernization • Cloud • AI-Assisted Engineering
Bloomington, IL, USA • Open to Relocation to Germany • phanindra.uppalapati@gmail.com • linkedin.com/in/phanindrauppalapati • github.com/phanindra-uppalapati

PROFESSIONAL PROFILE

Senior Software Engineer with 13+ years of enterprise software engineering experience across **Java, Spring Boot, application modernization, cloud migration, CI/CD, testing, and production support**, with an earlier foundation in **Mainframe engineering**. Hands-on experience building and modernizing business-critical applications across legacy and cloud environments, with strong expertise in Java and Spring-based development. Experienced in technical leadership, distributed-team coordination, stakeholder collaboration, and driving development, modernization, deployment, and production delivery.

WHAT I BRING

13+ YEARS

Enterprise software engineering

JAVA + SPRING

Backend & application modernization

LEGACY → CLOUD

Mainframe, WebSphere & cloud modernization

TECHNICAL LEADERSHIP

Hands-on execution & team coordination

CORE TECHNOLOGIES

Backend

Java 11/17, Spring Boot, Spring MVC, Spring JDBC, Spring Security, REST, SOAP

Cloud & DevOps

AWS ROSA, PCF, Docker, OpenShift/ROSA, GitOps, GitLab CI/CD, Maven

Frontend

React, JavaScript, HTML5, JSP, jQuery, Bootstrap

Data & Testing

PostgreSQL, DB2, Redis, RabbitMQ, IMS, JUnit, Karate, Playwright

Observability & AI

Splunk, Dynatrace, GitHub Copilot, OpenAI Codex, Claude Code

SELECTED RECENT IMPACT

- Migrated 12 enterprise applications from PCF/on-premises to AWS ROSA in 6 months, ahead of target, using parallel migration batches.
- Personally migrated 15 Spring Boot 3 applications to Spring Boot 4 in one two-week sprint using a reusable Codex skill/agent workflow with developer approval gates.
- Contributed hands-on to modernization of 10 IBM WebSphere applications to Tomcat-based cloud deployments; legacy WebSphere applications were subsequently sunset.
- Developed and demonstrated a Playwright POC for UI smoke/acceptance testing and proposed GitLab CI/CD automation for production technical checkouts and rapid DR validation.

PROFESSIONAL EXPERIENCE

Tata Consultancy Services (TCS) | Senior Software Engineer

State Farm Automobile Insurance Company | Bloomington, IL, USA | Apr 2022 – Present

- Drove hands-on execution for enterprise application migration to AWS ROSA, contributing to development, CI/CD, implementation, testing, troubleshooting, production monitoring and triage.
- Customized enterprise container templates and developed GitLab CI/CD scripts consuming enterprise pipeline components; designed branch and merge-request rules for feature, development and release workflows.
- Resolved migration issues involving pod resource utilization/autoscaling and identified multi-instance database connectivity requirements.
- Created and applied a reusable Codex-based workflow for Spring Boot migrations, including build/scanning validation, test deployment, smoke-test monitoring, merge-request preparation and release-pipeline monitoring with developer approval gates.
- Led technical execution for a five-member distributed team through work sequencing, technical guidance, code reviews, mentoring and coordination with Product Owners and Scrum Masters.
- Contributed hands-on to modernization of IBM WebSphere applications to Tomcat-based cloud deployments and supported retirement of legacy WebSphere applications.
- Provided production and incident support, investigated recurring incidents and implemented permanent fixes; participated in disaster recovery exercises.

Tata Consultancy Services (TCS) | Team Lead

State Farm Automobile Insurance Company | Bloomington, IL / Chennai, India | Mar 2018 – Apr 2022

- Led delivery for a customer-facing Life Workload Management application, covering requirements analysis, estimation, design, Java/Spring Boot development, REST/SOAP services, React, testing, deployment and production support.
- Provided technical guidance, code review, defect investigation and root-cause analysis while coordinating development work.
- Worked with client stakeholders on requirements and business clarifications and supported functional/design documentation and test planning.

PROFESSIONAL EXPERIENCE — EARLIER CAREER

Tata Consultancy Services (TCS) | Software Developer — Mainframe

State Farm Mutual Automobile Insurance Company | Chennai, India | Jun 2013 – Mar 2018

- Developed and supported enterprise Mainframe applications using COBOL, PL/1, JCL, IMS and DB2, including impact analysis, coding, testing, documentation and production support.
- Worked on application changes involving client, claim and violation information and supported database updates and validation processes.
- Performed requirements and impact analysis, defect resolution and release support across development and production environments.

TECHNOLOGY DETAIL

Languages	Java 11/17, JavaScript, COBOL, PL/1, JCL
Frameworks	Spring Boot, Spring MVC, Spring JDBC, Spring Security, React, JSP, jQuery, Bootstrap
APIs / Integration	REST, SOAP
Cloud / Platform	AWS ROSA, PCF, Docker, OpenShift/ROSA, GitOps
CI/CD	GitLab CI/CD, GitLab pipeline components, Maven
Data / Messaging	PostgreSQL, DB2, Redis, RabbitMQ, IMS
Testing	JUnit, Karate, Playwright, smoke testing, regression testing
Observability	Splunk, Dynatrace, application logs, production triage
Legacy	COBOL, PL/1, JCL, IMS, DB2, IBM WebSphere
AI-Assisted Engineering	GitHub Copilot, OpenAI Codex, Claude Code, reusable skills/prompts

CERTIFICATIONS

- GitHub Copilot Certified (GH-300) — Microsoft | June 2026
- Splunk Certified Power User — Previously certified
- Oracle Certified Professional, Java SE 6 Programmer — Previously certified
- IBM Certified Academic Associate, DB2 9 — Previously certified

EDUCATION

Bachelor of Technology (B.Tech.), Computer Science and Engineering — RVR & JC College of Engineering, Acharya Nagarjuna University, Guntur, Andhra Pradesh, India | 2012

PROFESSIONAL DEVELOPMENT

React JS • GitOps • Cloud Foundry • AWS Developer • Bootstrap Framework • Machine Learning • Big Data and Hadoop Ecosystem • Scala • Agile Delivery • Property Insurance • IMS and DB2

CAREER DIRECTION

Target roles: Senior Software Engineer, Senior Java Engineer, Lead Software Engineer, Senior Backend / Full-Stack Engineer. Open to relocation to Germany.
